**TeleMental Health – Proposed New Rule:**

Purpose: The purpose of this rule is to clarify the application of the delivery of mental health services by a Professional Counselor, Social Worker or Marriage and Family Therapist (PC, SW, and MFT) using technology-assisted media such as telephone, video, the internet and other electronic means.

Main Features: This rule clarifies the Board’s stance on the use of telecommunication technology in the delivery of mental health services by a PC, SW or MFT.

(1) Definitions:

- a) Asynchronous store and forward means the transmission of a client’s mental health information from an originating site to a PC, SW or MFT at a distant site without the presence of the client.
- b) Distant site refers to a site or location to which mental health services are delivered by a PC, SW or MFT via a telecommunication system such as a smartphone, tablet PC and desktop system using required encryption technology compliant with HIPAA patient privacy regulations and related confidentiality mandates at the originating site and the distant site. In most cases, the distant site is in a geographic location separate or distant from the providing PC, SW, or MFT.
- c) PC, SW or MFT means a person licensed in the state of Georgia.
- d) Originating site means a site where a client is located at the time mental health services are provided via telecommunications systems or where the asynchronous store and forward services originates.
- e) Synchronous interaction means a real-time interaction between a client and a PC, SW or MFT provider located at a distant site.
- f) TeleMental Health means the mode of delivering mental health care services via information and communication technologies to facilitate the diagnosis, consultation, treatment, education, care management, and self-management of a client’s mental health care while the client is at the originating site and the PC, SW or MFT is at a distant site. TeleMental Health

facilitates client and self-management and caregiver support for clients and includes synchronous interactions and asynchronous store and forward transfers.

- g) TeleMental Health Supervision means the delivery of supervision via information and communication technologies at one site while the supervisee is located at a distant site. Requirements for supervision are described in Board Rule 135-5.  
(2) Provisions
  - a) Prior to the delivery of mental health care via telemental health, the PC, SW or MFT at the originating site shall inform the client that telemental health will be used and obtain verbal and written consent from the client for this use. The verbal and written consent shall be documented in the client's record. Consent must include disclosure of the use of any third party vendor such as a record keeping or billing service or legal counsel and may be withdrawn at any time during the course of telemental health care delivery.
  - b) For the purpose of delivery under this rule, the PC, SW or MFT shall make every effort to use assessment instruments, referenced in Rule 135-7-.05, to guard against an approach to delivery that may not promote the welfare and best interest of the client.
  - c) The failure of a PC, SW or MFT to comply with this action shall constitute a Code of Ethics violation, as described in Board Rules: 135-7-.01 Responsibility to Clients and 135-7-.03 Confidentiality.
  - d) This rule shall not be construed to alter the scope of practice of any PC, SW or MFT or authorize the delivery of mental health services in a setting, or in a manner, not otherwise authorized by law.
  - e) The PC, SW or MFT, prior to using telemental health as a mode of delivery, shall obtain a minimum of 6 hours (may be online) of training related to telemental health education such as teletherapy, telecounseling, distance counseling, video-assisted counseling, behavioral telehealth, e-health, as approved by the professional association, academic department, licensing or certification board, state, or local government, agency public school system or licensed hospital that sponsors, or co-sponsors the continuing education activity. These hours are to be included within the (35) thirty-five continuing education hours needed for renewal.
  - f) PCs, SWs or MFTs delivering telemental health care are required to advertise and professionally represent these services delivered as described in Board Rule 135-7-.07 Advertising and Professional Representation.
  - g) PC, SW, or MFTs who want to offer TeleMental Health services outside the state are advised to check with the state board in which the client resides for information about telemental health regulations outside of Georgia.
