  - (2) *Any razor-like implement, such as a credo blade, shall not be used to prevent the risk of injury or infection.*
  - (3) *Pumice stones shall not be reused from one customer to another to prevent the spread of bacteria.*
  - (4) *Customers should not shave their legs the same day as receiving pedicure services to reduce the risk of infection.*

Authority O.C.G.A. §§ 43-10-2, 43-10-6, and 43-10-11.

**130-5-.01 Shampoo Equipment. Amended.**

Shampoo bowls must be thoroughly cleansed and sanitized.

Authority O.C.G.A. §§ 43-10-2 and 43-10-6.

**130-5-.02 Linens. Amended.**

Towels/linens, after being used once, must be placed in a closed container until properly laundered. Clean towels must be kept in a closed cabinet, container, or closet except linens which are designated for use on current patrons.

Authority O.C.G.A. §§ 43-10-2 and 43-10-6.

**130-5-.05 Cleaning and Recommended Disinfection of Implements. Amended.**

(1) All multi-use tools, implements, and equipment used for cosmetology services that come in contact with a client ***must be cleaned of all visible debris after each use*** and disinfected after each use by complete saturation or immersion for at least 10 minutes in an EPA registered, hospital grade disinfectant according to the manufacturer's directions. Each salon or shop shall have wet and dry disinfectant sanitizers in the salon or shop at all times.

(a) Multi-use items constructed of nonporous materials such as metal, glass, or plastic for use on more than one client include, but are not limited to the following items: nail clippers, cuticle nippers, cuticle pushers, scissors, shears, reusable nail forms, manicure and pedicure bowls, foot files, glass, metal and fiberglass files, metal drill bits, tweezers, comedone extractors, brushes, combs, clips, non-disposable pencil sharpeners, and any other metal tools/non-porous implements not listed above.

(b) Single use items shall be discarded after being used one time. These items include: buffers, emery boards, nail files, sleeves and sanders for electric files, orangewood/birchwood sticks, wooden applicator sticks or spatulas, porous foot files, pedicure slippers and toe separators, disposable gloves, paraffin liners, cotton balls, cotton strips or swabs, neck strips and muslin strips ***or any items that cannot be sanitized.***

(2) Wet disinfection standards for tools, implements, or equipment:

(a) After cleaning, all tools, implements and equipment must be disinfected by complete saturation or immersion (enough solution to cover all surfaces of the item) for 10 minutes in an EPA registered, hospital grade disinfectant that is bactericidal, virucidal, fungicidal, and pseudomonacidal. The disinfecting solution must be changed daily and prepared according to manufacturer's directions.

(b) All tools, implements, or equipment that come in contact with blood or body fluids must be disinfected by complete immersion for a minimum of 10 minutes in an EPA registered disinfectant that is effective against HIV-1 and Human Hepatitis B Virus, **and** tuberculocidal that is prepared and used according to the manufacturer's directions.

(3) Dry storage standards for tools, implements, or equipment:

(a.) All disinfected tools and implements shall be stored in a sanitary manner in a covered container. The container must be labeled to show that it contains disinfected tools and implements. An EPA approved dry disinfectant **shall** be used.

(b) Soiled and dirty tools and implements must be stored in a separate and properly labeled covered container. Soiled and dirty tools and implements shall not be used again until properly cleaned and disinfected according to the procedures stated in this rule.

(4) Hand washing is required before and between providing services to each client. An anti-bacterial soap is recommended to sanitize the hands and the exposed portions of arms before providing services and after smoking, drinking, eating, and using restrooms.

(5) Pedicure equipment cleaning disinfection procedures to be used for all pedicure equipment that holds water including sinks, bowls, basins, pipe-less, and whirlpool spas are as follows:

(a) After each client, all pedicure units must be cleaned with a chelating soap or detergent with water to remove all visible debris, then disinfected with an EPA registered hospital grade bactericidal, fungicidal, virucidal, and pseudomonacidal disinfectant used according to manufacturers instructions ***for at least ten (10) minutes.*** If the pipe-free foot spa has a foot plate, it should be removed and the area beneath it cleaned, rinsed, and wiped dry.

(b) At the end of each day of use, the following procedures shall be used:

1. All filter screens in whirlpool pedicure spas or basins for all types of foot spas must be sanitized. All visible debris in the screen and the inlet must be removed and cleaned with a chelating soap or detergent and water. For pipe-free systems, the jet components or foot plate must be removed and any debris removed and cleaned. The screen, jet, or foot plate must be completely immersed in an EPA registered, hospital grade bactericidal, fungicidal, virucidal, and pseudomonacidal disinfectant that is used according to manufacturers

An Equal Opportunity Employer

instructions. The screen, jet, or foot plate should be replaced after disinfection is completed and the system flushed with warm water and low-sudsing soap for 5 minutes, rinsed, and drained.

2. After the above procedures are completed, the basin should be filled with clean water and the correct amount of EPA registered disinfectant. The solution must be circulated through foot spa system for 10 minutes and the unit then turned off. The solution should remain in the basin for at least 6 to 10 hours. Before using the equipment again, the basin system must be drained and flushed with clean water.

Authority O.C.G.A. **§§ 43-10-2, 43-10-6, and 43-10-9.**

**Martha Harris moved, Kay Kendrick seconded, and the Board voted unanimously** that the formulation and adoption of these rules does not impose excessive regulatory cost on any licensee and any cost to comply with the proposed rule cannot be reduced by a less expensive alternative that fully accomplishes the objectives of **O.C.G.A.  $\chi$ 43-10-1(4)(D), 43-10-2(2) and 43-20-9(a)** and that it is not legal or feasible to meet the objectives of **O.C.G.A.  $\chi$ 43-10-10-1(4)(D), 43-10-2(2) and 43-20-9(a)** to adopt or implement differing actions for business as listed at **O.C.G.A.  $\chi$ 50-13-4(3)(A), (B), (C), & (D)** and that the formulation and adoption of these rules will impact every licensee in the same manner and each licensee is independently licensed, owned, and operated in the field of Cosmetology, Nail Care, and Esthetics.

Martha Harris instructed that inspections of three new schools in Buford, East Point, and Forest Park are scheduled as soon as possible.

There was no further business conducted. The meeting adjourned at 11:20 am.
