The division considered the following correspondence and items of information:

William Lee with TCOM Designs Inc. met with the board in order to express his desire to have the Low Voltage General license eliminated and also to ask if we could adopt the TIA standards for proper installation of low voltage cabling. The board recommended that Mr. Lee take his concerns to his county inspector and his legislative representative as these issues are not governed by the low voltage board.

There being no further business, Roger Futch moved, seconded by Mike Miller and the division voted to adjourn the meeting at 11:30 a.m.
