Board Policy #1

In the May 10, 2001 Board Meeting*, the Georgia Board of Chiropractic Examiners voted to adopt the following as Board Policy:

### Guidelines for Issuing Licenses

Applications will be approved administratively once all criteria as outlined in the law and Board rules have been met. The administrative processing of licenses mean that the Board staff has reviewed the documents and approved licensure based upon the laws, rules and Board Policies that pertain to that specific type of licensure. License reinstatements will be administratively processed in compliance with the Board’s current Reinstatement/Reactivation Policy. The Board will review any applicant with an affirmative answer to the conviction or Board sanction questions. Administratively issued licenses are considered for a vote to ratify at the next regularly scheduled Board meeting.

* This policy was reviewed, updated & approved in the June 9, 2003 Conference Call, and again in the July 10, 2003 Board meeting. Amended 9/9/2004.

Board Policy #5

Reinstatement Policy

Once the completed reinstatement application and the supporting documents have been submitted the board staff will review and issue the reinstatement for all individuals with a “clean” application. Complete “clean” applications will be reinstated administratively. A list of the reinstated licensees will be presented to the board for ratification at the next board meeting. For purposes of this policy, a consent order is a legal binding document that becomes a permanent part of your licensure information.

The supporting documents required with the reinstatement application include:
- CE hours- twenty (20) hours per year totaling forty (40) hours within the last two (2) years;
  - The CE hours used for reinstatement cannot be used to meet the CE requirements for the biennium for which the license is reinstated; and
- Verification of licensure from all states in which the applicants holds or has ever held a license.

All reinstatement application citing problems, (not having CE during last biennial renewal period, unlicensed practice, convictions, disciplinary action in other states, etc.) will have to be reviewed by the board at the next available board meeting.

For licensees that state that they have not been practicing without a license since the date that the license lapsed are reinstated without a consent order.

For licensees that state that they have been practicing without a license since the date that the license lapsed are reinstated and the matter is referred to Legal Services for the following:
- public consent order citing the dates of the unlicensed practice,
- $1,000 fine to be paid in full before the license will be reinstated,
- # of years probation to be determined by the Board,
- and the completion of the Ethics and Boundaries Examination administered by the National Board of Chiropractic Examiners within one year of the effective date of the order.

If reinstatement is granted, the license will be required to be renewed by the last day of December in EVEN numbered years, regardless of when the license is reinstated.

The implications of a licensee practicing without a license are far-reaching. Employers, employees, and/or associates working with any unlicensed person who is practicing chiropractic could be subject to disciplinary action for aiding & abetting unlicensed practice; Medicaid & Medicare charges and insurance billed during any unlicensed period may be subject to denial or reimbursement; if applicable, malpractice providers may not cover the individual during the unlicensed period.

*Amended 02-2007
