2. Issue, renew, refuse to renew, deny, suspend, or revoke licenses to practice veterinary medicine or veterinary technology in this state or otherwise discipline licensed veterinarians and licensed veterinary technicians; and to issue, renew, deny, suspend, or revoke veterinary faculty licenses, consistent with this chapter and the rules and regulations adopted under this chapter;

(9) Establish and publish annually a schedule of fees for licensing.

(b) The powers enumerated in subsection (a) of this Code section are granted for the purpose of enabling the board to supervise effectively the practice of veterinary medicine and veterinary technology and are to be construed liberally to accomplish these objectives.

§ 43-50-31. Application for license; qualifications; recordation of license and issuance of certificate of registration

(a) Any person desiring a license to practice veterinary medicine in this state shall make application to the board. The application shall include evidence, satisfactory to the board, that:

(1) The applicant has attained the age of 18;

(2) The applicant is of good moral character;

(3) The applicant is a graduate of an accredited college or school of veterinary medicine accredited by the American Veterinary Medical Association Council on Education or possesses an ECFVG or PAVE certificate or substantial equivalent;

(4) The applicant has passed a board approved examination; provided, however, that the board may provide by rule or regulation for a waiver of any part of such examination for veterinarians who are licensed as such by another state and who are in good standing therewith; and

(5)(a) The applicant meets such other qualifications or provides such other information as the board may require by rule.

(b) The application shall be accompanied by a fee in the amount established by the board.

(c) The division director shall record the new licenses and issue a certificate of registration to the new licensees.
(d) If an applicant is found not qualified for licensure, the board shall notify the applicant in writing of such finding and the grounds therefore. Such applicant may request a hearing before the board on the questions of his or her qualifications.

§ 43-50-33. Application of article to persons licensed on July 1, 2003 Any person holding a valid license to practice veterinary medicine in this state on July 1, 2003, shall be recognized as a licensed veterinarian and shall be entitled to retain this status so long as he or she complies with this article, including biennial renewal of the license.

(a) All licenses under this article shall be renewable biennially.

(b) Any person who shall practice veterinary medicine or veterinary technology after the expiration of his or her license and willfully or by neglect fail to renew such license shall be practicing in violation of this article, provided that any person may renew an expired license within the period established by the division director in accordance with Code Section 43-1-4 by making application for renewal and paying the applicable fees. After the time period has elapsed, such license or registration may be reinstated in accordance with the rules of the board.

(c) The board may, by rule, waive the continuing education requirements and payment of the renewal fee of a licensed veterinarian or licensed veterinary technician during the period when he or she is on active duty with any branch of the armed forces of the United States.

(d) (1) The board shall establish continuing professional veterinary medical education requirements for the renewal of veterinary licenses. Notwithstanding any other provision of this article, no license to practice veterinary medicine or veterinary technology shall be renewed by the board or the division director until the licensee submits to the board satisfactory proof of his or her participation, during the biennium preceding his or her application for renewal, in approved programs of continuing education, as defined in this Code section. The amount of continuing veterinary medical education required of licensees per biennium by the board under this paragraph shall not be less than 30 hours for veterinarians and not be less than ten hours for veterinary technicians and shall be established by board rule.

(2) Continuing professional veterinary medical education shall consist of educational programs providing training pertinent to the practice of veterinary medicine and veterinary technology and approved by the board under this Code section. The board may approve educational programs for persons practicing veterinary medicine or veterinary technology in this state on a reasonable nondiscriminatory fee basis and may contract with institutions of higher learning, professional organizations, or qualified persons for the provision of approved programs. In addition to such
programs, the board may allow the continuing education requirement to be fulfilled by the completion of approved distance learning courses, with the number of hours being established by board rule.

(3) The board may, consistent with the requirements of this Code section, promulgate rules and regulations to implement and administer this Code section, including the establishment of a committee to prescribe standards, approve and contract for educational programs.

(e) The board shall provide by regulation for an inactive status license for those persons who elect to apply for such status. Persons who are granted inactive status shall not engage in the practice of veterinary medicine or veterinary technology and shall be exempt from the requirements of continuing veterinary medical education during such inactivity.

§ 43-50-41. Disciplinary action; subpoenas; judicial review; reinstatement; investigatory powers; immunity; failure to appear; voluntary surrender of license or registration

(a) The board is authorized to refuse to grant a license to an applicant, to suspend or revoke the license of a person licensed by the board, or to discipline a person licensed under this chapter or any antecedent law, upon a finding by a majority of the entire board that the licensee or applicant has:

(1) Failed to demonstrate the qualifications or standards for a license contained in this chapter or in the rules and regulations issued by the board, pursuant to specific statutory authority. It shall be incumbent upon the applicant to demonstrate to the satisfaction of the board that he or she meets all the requirements for the issuance of a license, and, if the board is not satisfied as to the applicant's qualifications, it may deny a license without a prior hearing; provided, however, that the applicant shall be allowed to appear before the board if he or she so desires;

(2) Knowingly made misleading, deceptive, untrue, or fraudulent representations in the practice of veterinary medicine or veterinary technology on any document connected therewith; practiced fraud or deceit or intentionally made any false statement in obtaining a license to practice veterinary medicine or veterinary technology; or made a false statement or deceptive biennial renewal with the board;

(3) Been convicted of any felony or of any crime involving moral turpitude in the courts of this state or any other state, territory, or country or in the courts of the United States. As used in this paragraph, the term "felony" shall include any offense which, if committed in this state, would be deemed a felony without regard to its designation elsewhere. As used in this paragraph, the term "conviction" shall include a finding or verdict of guilty or a plea of guilty, regardless of whether an appeal of the conviction has been sought;

(4) Been arrested, charged, and sentenced for the commission of any felony, or any crime involving moral turpitude, where:

(A) A plea of nolo contendere was entered to the charge;

(B) First offender treatment without adjudication of guilt pursuant to the charge was granted; or

(C) An adjudication or sentence was otherwise withheld or not entered on the charge. The plea of nolo contendere or the order entered pursuant to the provisions of Article 3 of Chapter 8 of Title...
42 or other first offender treatment shall be conclusive evidence of arrest and sentencing for such crime;

(5) Had his or her license to practice veterinary medicine veterinary technology revoked, suspended, or annulled by any lawful licensing veterinary medical authority other than the board; had other disciplinary action taken against him or her by any lawful licensing or registering veterinary medical authority other than the board; was denied a license by any lawful licensing veterinary medical authority other than the board, pursuant to disciplinary proceedings; or was refused the renewal of a license by any lawful licensing veterinary medical authority other than the board, pursuant to disciplinary proceedings;

(6) Engaged in any unprofessional, immoral, unethical, deceptive, or deleterious conduct or practice harmful to the public, which materially affects the fitness of the licensee or applicant to practice veterinary medicine or veterinary technology, or of a nature likely to jeopardize the interest of the public, and which need not have resulted in actual injury or be directly related to the practice of veterinary medicine or veterinary technology but shows that the licensee or applicant has committed any act or omission which is indicative of bad moral character or untrustworthiness. Unprofessional conduct shall also include any departure from, or the failure to conform to, the minimal standards of acceptable and prevailing veterinary medical practice or veterinary technology practice. Unprofessional conduct shall also include, but not be limited to, the failure to keep veterinary facility premises and equipment in a clean and sanitary condition; dishonesty or gross negligence in the inspection of foodstuffs or the issuance of health or inspection certificates; or cruelty to animals;

(7) Knowingly performed any act which in any way aids, assists, procures, advises, or encourages any unlicensed person or any licensee whose license has been suspended or revoked by the board to practice veterinary medicine or veterinary technology or to practice outside the scope of any disciplinary limitation placed upon the licensee by the board;

(8) Violated a statute, law, or any rule or regulation of this state, any other state, the board, the United States, or any other lawful authority (without regard to whether the violation is criminally punishable), which relates to or in part regulates the practice of veterinary medicine or veterinary technology, when the licensee or applicant knows or should know that such action violates such statute, law, rule, or regulation; or violated the lawful order of the board previously entered by the board in a disciplinary hearing, consent decree, or license reinstatement;

(9) Been adjudged mentally incompetent by a court of competent jurisdiction within or without this state. Any such adjudication shall automatically suspend the license of any such person and shall prevent the reissuance or renewal of any license so suspended for as long as the adjudication of incompetence is in effect;

(10) Displayed an inability to practice veterinary medicine or veterinary technology with reasonable skill and safety to animal patients or has become unable to practice veterinary medicine or veterinary technology with reasonable skill and safety to animal patients by reason of illness, use of alcohol, drugs, narcotics, chemicals, or any other type of material; as a result of any mental or physical condition; or by reason of displaying habitual intoxication, addiction to, or recurrent personal misuse of alcohol, drugs, narcotics, chemicals, or any other type of similar substances. In enforcing this paragraph, the board may, upon reasonable grounds, require a licensee or applicant to submit to a mental or physical examination by physicians designated by the board. The results of such examination shall be admissible in any hearing before the board, notwithstanding any claim of privilege under a contrary rule of law or statute. Every person who shall accept the privilege of practicing veterinary medicine or veterinary technology in this state
or who shall file an application for a license to practice veterinary medicine or veterinary
technology in this state shall be deemed to have given that person's consent to submit to such
mental or physical examination and to have waived all objections to the admissibility of the
results in any hearing before the board upon the grounds that the same constitutes a privileged
communication. If a licensee or applicant fails to submit to such an examination when properly
directed to do so by the board, unless such failure is due to circumstances beyond his or her
control, the board may enter a final order upon proper notice, hearing, and proof of such refusal.
Any licensee or applicant who is prohibited from practicing veterinary medicine or veterinary
technology under this paragraph shall at reasonable intervals be afforded an opportunity to
demonstrate to the board that such person can resume or begin the practice of veterinary
medicine or veterinary technology with reasonable skill and safety to animal patients;
(11) Failed to register with the division director as required by law. It shall be the duty of every
licensee to notify the board of any change in his or her address of record with the board;
provided, however, that, for a period established by the division director after failure to register,
a license may be reinstated by payment of a registration fee to be determined by the board by
rule and by filing of a special application therefor. After this period has elapsed, a license may be
revoked for failure to register and for failure to pay the fee as provided by law;
(12) Engaged in the excessive prescribing or administering of drugs or treatment or the use of
diagnostic procedures which are detrimental to the animal patient as determined by the
customary practice and standards of the local community of licensees; knowingly prescribed
controlled drug substances or any other medication without a legitimate veterinary medical
purpose; or knowingly overprescribed controlled drug substances or other medication, in light of
the condition of the animal patient at the time of prescription;
(13) Knowingly made any fraudulent, misleading, or deceptive statement in any form of
advertising or made any statement in any advertisement concerning the quality of the veterinary
services rendered by that licensed veterinarian or any licensed veterinarian associated with him
or her or the qualifications of said veterinarian. For purposes of this paragraph, the term
"advertising" shall include any information communicated in a manner designed to attract public
attention to the practice of the licensee;
(14) Used, prescribed, or sold any veterinary prescription drug or prescribed an extralabel use of
any drug in the absence of a valid veterinarian-client-animal patient relationship; or
(15)(a) Has had his or her United States Drug Enforcement Administration privileges restricted
or revoked.
(b) The provisions of Chapter 13 of Title 50, the "Georgia Administrative Procedure Act," with
respect to emergency action by the board and summary suspension of a license or registration are
adopted and incorporated by reference into this chapter.
(c) For purposes of this Code section, the board may obtain, and is authorized to subpoena, upon
reasonable grounds, any and all records relating to the mental or physical condition of a licensee
or applicant, and such records shall be admissible in any hearing before the board.
(d) When the board finds that any person is unqualified to be granted a license or finds that any
person should be disciplined pursuant to subsection (a) of this Code section, the board may take
any one or more of the following actions:
(1) Refuse to grant or renew a license to an applicant;
(2) Administer a public or private reprimand, but a private reprimand shall not be disclosed to
anyone other than the person reprimanded;
(3) Suspend any license for a definite period or for an indefinite period in connection with any condition which may be attached to the restoration of said license;
(4) Limit or restrict any license as the board deems necessary for the protection of the public;
(5) Revoke any license; or
(6) Condition the penalty upon, or withhold formal disposition pending, the applicant's or licensee's submission to such care, counseling, or treatment as the board may direct.

(e) In addition to and in conjunction with the actions described in subsection (d) of this Code section, the board may make a finding adverse to the licensee or applicant but withhold imposition of judgment and penalty; or it may impose the judgment and penalty but suspend enforcement thereof and place the licensee on probation, which may be vacated upon noncompliance with such reasonable terms as the board may impose.

(f) Initial judicial review of a final decision of the board shall be had solely in the superior court of the county of domicile of the board.

(g) In its discretion, the board may reinstate a license which has been revoked or issue a license which has been denied or refused, following such procedures as the board may prescribe by rule; and, as a condition thereof, it may impose any disciplinary or corrective method provided in this chapter.

(h)(1) The division director is authorized to make, or cause to be made through employees or contract agents of the board, such investigations as he or she or the board may deem necessary or proper for the enforcement of the provisions of this chapter. Any person properly conducting an investigation on behalf of the board shall have access to and may examine any writing, document, or other material relating to the fitness of any licensee or applicant. The division director or his or her appointed representative may issue subpoenas to compel such access upon a determination that reasonable grounds exist for the belief that a violation of this chapter or any other law relating to the practice of veterinary medicine or veterinary technology may have taken place.

(2) The results of all investigations initiated by the board shall be reported solely to the board, and the records of such investigations shall be kept for the board by the division director, with the board retaining the right to have access at any time to such records. No part of any such records shall be released, except to the board, for any purpose other than a hearing before the board, nor shall such records be subject to subpoena; provided, however, that the board shall be authorized to release such records to another enforcement agency or lawful licensing authority.

(3) The board shall have the authority to exclude all persons during its deliberations on disciplinary proceedings and to discuss any disciplinary matter in private with a licensee or applicant and the legal counsel of that licensee or applicant.

(i) A person, firm, corporation, association, authority, or other entity shall be immune from civil and criminal liability for reporting or investigating the acts or omissions of a licensee or applicant which violate the provisions of subsection (a) of this Code section or any other provision of law relating to a licensee's or applicant's fitness to practice as a licensed veterinarian or licensed veterinary technician or for initiating or conducting proceedings against such licensee or applicant, if such report is made or action is taken in good faith, without fraud or malice. Any person who testifies or who makes a recommendation to the board in the nature of peer review, in good faith, without fraud or malice, before the board in any proceeding involving the provisions of subsection (a) of this Code section or any other law relating to a licensee's or applicant's fitness to practice as a licensed veterinarian or licensed veterinary technician shall be immune from civil and criminal liability for so testifying.
