Rules Discussion

The Division discussed changes to Board Rule 553-4-.01 and Board Rule 553-4-.02 and discussion included the following: there is no longer a need to submit a line of credit or a reference letter from a certified public accountant wherein the certified public performs an audit, or review, or compilation of the applicant's financial information. The Division discussed the validity of the audit, or review, or compilation as the information is on valid for the period of time in which the reports were completed. The Georgia State Board of Accountancy previously contacted the Division to inform the Division that the CPA forms currently utilized by the Board may not have the appropriate language as it relates to certified public accountants. The FASB and AICPA have new reporting standards which the Division may want to consider. The Division also discussed that removing the requirement would also streamline the application process.
