## **OPEN SESSION**

Tanner called the meeting to order at 9:05 am on Thursday, May 14, 2026. Tanner declared the meeting to be “open” pursuant to the Open and Public Meeting Act, O.C.G.A. §§ 50-14-1 et seq.

## **CORRESPONDENCE**

### **01 – TOEFL Scores**

The Board received correspondence from TruMerit regarding recent changes to the TOEFL iBT scoring framework implemented by Educational Testing Service (ETS). The updated scoring model uses a 1–6 scale, reported in 0.5-point increments, and is intended to provide clearer alignment with CEFR proficiency levels and improved score interpretation. ETS has also established a two-year transition period during which score reports will display both the new 1–6 scale and the previous 0–120 total score.

The Board noted that its current rule identifies a passing TOEFL iBT score as 79. As a result of the scoring changes, the rule will need to be amended to reflect the new scoring scale.

Board staff will conduct additional research to determine an appropriate passing score under the revised framework and will present recommendations to the Board after the information has been reviewed and analyzed.

## **STRATEGIC PLAN**

### **01 – TCSG LPN Reentry Proposal**

The Technical College System of Georgia submitted a proposal to update the curriculum for its LPN Reentry Programs. These programs are currently Board-approved and included on the Board’s Approved Reentry Program List. Following review of the proposed updates, the Board voted to approve the revised curriculum. Bohannon made a motion to approve, Pierce seconded, and the motion carried unanimously. Willcox abstained.

### **02 – Alternative to Discipline Program – Establish a committee**

The Board reviewed and discussed House Bill 219, recently signed into law by Governor Kemp, which authorizes the Board of Nursing to establish a professional health program for the monitoring and rehabilitation of impaired healthcare professionals. Programs of this type are commonly known nationwide as Alternative to Discipline (ATD) Programs. These programs allow nurses whose sole issue involves a substance use disorder to seek treatment and participate in monitoring without formal disciplinary action being taken against their license.

Although the bill does not include a fiscal note, the Board voted to establish a committee to research existing ATD programs and evaluate the best approach for implementation moving forward. Autumn Garber and Roger Pierce volunteered to serve on the committee, and additional members interested in participating are asked to notify Tara Taylor, Executive Director.

### **03 – Non-Traditional Nursing Programs – Post Information on BON Website**

Tara Taylor discussed with the Board the growing number of examination and endorsement applications being submitted by graduates of the non-traditional nursing program, Excelsior. Many applicants of non-traditional programs have raised concerns regarding the statutory requirement to complete a preceptorship. Board staff requested approval to add information to the Board of Nursing website explaining the preceptorship requirement for non-traditional graduates seeking licensure. The Board approved adding information to its website regarding licensure requirements, including the completion of a preceptorship, for graduates of non-traditional nursing programs.

#### **04 – Out of State Program Pathway for Clinical Experiences in Georgia**

Due to the increasing number of requests from out-of-state nursing programs, considerations related to interstate commerce laws, and guidance from the Attorney General’s Office, the Board is establishing a pathway that will allow nursing programs located outside of Georgia to conduct clinical experiences at healthcare facilities within the state. While the Board has previously approved a pathway for nursing programs located in bordering states, this new pathway will extend eligibility to nursing programs from all U.S. jurisdictions.

Stevan VanHook, Education Consultant, revised the previously approved guidelines for the approval of out-of-state pre-licensure nursing education programs. The revised guidelines incorporate parameters based on the Board’s existing nursing education rules to ensure that any approved out-of-state program meets standards comparable to those required of nursing programs located in Georgia. Pursuant to O.C.G.A. §§ 43-26-3(1.2) and 43-26-32(1.1), an “approved nursing education program” located outside Georgia is defined as a nursing education program that the Board has determined meets criteria that are similar to, and no less stringent than, those established for nursing education programs within this state.

The Board reviewed the amended guidelines and will continue its review over the coming weeks. Any necessary revisions will be made prior to final consideration and approval at the June 2026 Board meeting.

Tara Taylor, Executive Director, will begin drafting a new Board rule to formally establish this educational pathway.

#### **RULE WAIVER**

##### **01 – Allison Ellerbee**

Willcox made a motion to approve a rule variance permitting an alternative method for satisfying the 160-hour clinical practice requirement.

##### **02 – Che Andongkobi Ambele Cyril**

Watkins made a motion to approve the petition for a rule waiver. Pierce seconded the motion, and it carried unanimously.

#### **EDUCATION REPORT** – May 2026 Education Report - Stevan Van Hook, RN, MSN

Willcox moved to accept the Education Report as presented. Summerlin seconded the motion, and it carried unanimously. (*Willcox abstains from TSG matters. Watkins and Summerlin abstain from USG matters.*)

A second cohort was added in spring 2025, and curriculum revisions beginning fall 2026 will restructure the final semesters by removing Medical-Surgical Nursing III, increasing hours in Medical-Surgical Nursing II and Leadership, and separating Capstone and NCLEX Review into distinct courses. Additional time was added to NCLEX Review to better address medical-surgical content gaps and provide more comprehensive preparation. Additionally, the NCLEX Review course was updated to include exam wrappers for student reflection and analysis of testing performance, while Readiness Open Check and Benchmark Exams are now proctored in an NCLEX-style testing environment to better prepare students for licensure testing. Clinical education has also been strengthened through improved oversight of clinical instructors and enhanced student accountability. 		EDUCATION 07 (00020286)	Quarterly Report- April 2026	During the January 2026 Board meeting, the Board requested quarterly reports for the practical nursing program to address rule compliance associated with post-secondary education requirements. The program was instructed to submit official documentation for graduate requirements including official transcripts for each graduate, as well as

				<p>transfer transcript verification for post-secondary transfer credits accepted by the program for graduate requirements.</p> <p>The April quarterly report includes documentation for two graduating cohorts. The graduates included in the report were verified to meet educational requirements based upon previously submitted documentation for each graduate listed; thus, each graduate's educational information was imported into their applications for testing and licensure eligibility. The documentation previously submitted included Dignity's official transcript and the official transcript for all transfer credits accepted by their institution. Various meetings were held with the program's Nurse Administrator regarding official transcript requirements and needed revisions to verify educational requirements including procedures for obtaining official transfer credit documentation for post-secondary general education requirements. As you note on the last page, Dignity has submitted a statement in their required quarterly report stating the records are now unavailable for three graduates as previously submitted. One additional graduate was not listed in the statement; however, the documentation was not submitted in the quarterly report. Considering this statement, there are concerns regarding the validity of previously submitted documentation as well as significant licensing concerns for those that have applied and were licensed. One graduate listed in the statement applied through a board in another jurisdiction.</p> <p><b>Recommendation: Board discussion</b></p>

Athens Technical College	Associate	EDUCATION 10 (00020289)	Change in Nurse Administrator	Elizabeth Heath was appointed as Program Chair and Nurse Administrator effective January 1, 2026. The former Nurse Administrator, Andraa Perrin, was promoted to Academic Dean. Elizabeth Heath previously served as program faculty.  <b>Recommendation: Approve according to <a href="#">Rule 410-8-.05</a>.</b>
College of Coastal Georgia	Associate	EDUCATION 11 (00020290)	Curriculum Revision	College of Coastal Georgia's associate degree program has submitted a substantive change for proposed curriculum revisions starting August 17, 2026. There is not a change in overall credit hours. There is a decrease in class hours from 23 to 22 hours and an increase in clinical credit hours from 14 to 15 hours. The curriculum content is being redistributed with new course development to allow for more emphasis on adult health/medical-surgical content, as well as clinical judgement and critical thinking. The redistribution also delineates specific courses for specialty nursing content which were previously integrated and embedded in other courses. The proposed curriculum allows for clear delineation of credit and contact hours for specialty didactic and clinical instruction, as well as a clearer delineation of specific nursing content included in each course.

Chattanooga College- Medical, Dental, and Technical Careers, Inc.	Associate	EDUCATION 16 (00020295)	Intent Documentation Feasibility Study	<p>Chattanooga College based in Tennessee has submitted intent documentation for the proposed development of an associate and baccalaureate nursing program. The college does not offer an associate degree program currently and an initially approved baccalaureate program on their main campus location in Tennessee. The college has an established practical nursing program in Tennessee. The baccalaureate program is currently granted Initial Approval as a new program initially approved in 2023. The practical nursing program is currently granted Full Approval with a Letter of Concern by the Tennessee Board of Nursing. The practical nursing program's pass rate for 2025 was 71%. NCLEX pass rates have not been reported for the baccalaureate program as of 2025 per the Tennessee Board of Nursing website.</p> <p><b>Proposed Location:</b> 380 Interstate N Pkwy, Atlanta, GA 30339</p> <p><b>Anticipated start date for nursing courses:</b> October 2027</p>

			<p><b>Evidence of Highest Governing Body permission to develop new program:</b> The college is currently authorized by the State of Tennessee Higher Education Commission through March 31, 2028. Authorization was originally given in February 2025. Authorization by the Georgia Nonpublic Post-Secondary Education Commission (GNPEC) is currently pending. The college is a NC-SARA authorized school per GNPEC; however, they are establishing physical presence, so authorization is required.</p> <p><b>Evidence of accreditation by an accreditor recognized by the US Department of Education:</b> The college is institutionally accredited by the Accrediting Commission of Career Schools and Colleges (ACCSC). Per the most recent accreditation correspondence located on page 4 of the reference document, the college was granted Renewal of Accreditation with Reporting for a period of 3 years. The next review is August 2027. Per the correspondence letter the accreditation decision was based upon a March 6, 2025, Deferral, December 2025 on-site evaluation, and an anonymous complaint submitted November 2025. Additional documentation related to reporting requirements are included in the correspondence letter included in the reference document on page 4.</p> <p><b>Feasibility Study:</b> The feasibility study outlines the need contributed to healthcare shortage and nursing education capacity limitations due to faculty shortages, restricted clinical placement, and enrollment limitations within existing program causing qualified applicants’ inability to gain admission despite a strong interest in the nursing profession.</p> <p>An internal review was conducted of 14 surrounding associate and baccalaureate nursing programs currently established or recently developed in the Atlanta area. 50% of the programs reported accepting all qualified applicants for the reporting period. Reasons for not accepting all qualified applicants were attributed to insufficient faculty or clinical placement with very few reporting insufficient</p>

			<p>physical space. Currently, there is one baccalaureate and one associate degree program currently granted Developmental Approval in the Atlanta area that has not yet enrolled students.</p> <p>The feasibility study states the college “acknowledges that surrounding schools and similar registered nursing programs may experience some increased competition, the broader public need outweighs the potential negative effect. The proposed program is designed to expand access to cost-effective, clinically focused, and timely registered nurse education for students who may be place-bound, cost-sensitive, or seeking a more direct route into practice. In this respect, the program is intended to complement the existing educational market by adding capacity rather than displacing the need for current programs”. The feasibility also states “Although any new nursing program must be attentive to the potential effects on clinical placement availability and local faculty recruitment, those challenges can be mitigated through early partnership development, responsible cohort sizing, phased implementation, and a sustained commitment to collaborative relationships with clinical agencies”.</p> <p>The study further explains the intent to utilize hybrid learning models including online didactic, on-site lab, simulation, and clinical learning. The study states “The program also recognizes that hybrid learning models are expanding access for student learning. Contemporary nursing education increasingly incorporates hybrid delivery strategies that allow students greater flexibility in engaging with didactic content while preserving essential in-person laboratory, simulation, and clinical experiences. In a large metropolitan area such as Atlanta, this flexibility may reduce barriers related to commuting, scheduling, employment obligations, and family responsibilities, thereby broadening educational access for qualified students without compromising the clinically focused</p>

The executive summary is included on page 11 of the reference document.</p> <p><b>Written plan for Nurse Administrator and faculty recruitment:</b> The written plan is included on page 28 of the reference document. The college submitted an addendum to the original application to address the submission of a qualified registered nurse responsible for the program development. The registered nurse previously reported did not meet the regulatory qualification requirements. Tiffany Skinner, South College’s former Nurse Administrator, has been appointed as the Nurse Administrator of both programs. The college also reports Dr. Ruth Tarantine as an experiences curriculum designer that was consulted for program development. The addendum also included the notification of position postings recruiting faculty for the program. The college reports “The program will be supported by existing nursing faculty and campus staff during development and implementation. Faculty will be qualified based on academic preparation, licensure, clinical expertise, and teaching responsibilities, with staffing aligned to enrollment growth, course offerings, and clinical supervision needs”. The program utilizes a phased hiring model to ensure appropriate staffing levels prior to and following student enrollment.</p> <p>Pre-Launch (year 0): Program Director, Director of Nursing Operations, Clinical Coordinator, and two full-time faculty members</p> <p>Year 1: 3 additional full-time faculty members</p> <p>Years 2-5: faculty hiring will be based on projected enrollment and compliance with the Board rule mandating 1:25 overall enrollment ratio.</p> <p><b>Documentation of projected revenue sources:</b> The financial plan is included on page 45 of the reference document. The institution affirms that nursing program financial planning reflects a commitment to adequate</p>

The site visit was conducted with Board member Heather Bohannon. During the site visit, Georgia Piedmont Technical College’s associate degree program was found to have nine (9) deficiencies/recommendations related to faculty sufficiency, continuous quality assessment plan, meeting minutes, faculty orientation, clinical requirements, and ratio compliance. The Site Visit Response and documentation included information addressing all deficiencies/recommendations except for compliance verification for the following rules: Rule 410-8-.03 (7) and Rule 410-8-.05 (6) and (11): The response outlined the pending offers for 2 full-time faculty members with an anticipated start date of April 15, 2026. Two additional positions are open. The program also reports on the plan to utilize additional adjunct faculty. Final hiring verification and faculty appointments will need to be verified to ensure faculty sufficiency and ratio compliance verification.</p> <p><b>Recommendation: The Board to determine time period for the program to address compliance with <a href="#">Rule 410-8-.03 (7)</a>, <a href="#">Rule 410-8-.05 (6) and (11)</a>.
