HEAT LOSS AND GAIN AND DUCT DESIGN COURSES

Board Rules require all applicants for conditioned air to complete an approved course in heat loss and gain and duct design covering Manuals J & D when submitting an application. In addition, applicants for the non-restricted license (class 2) must complete a course that covers Manuals Q & N or the Carrier Design Manuals 1, 2, 3.

The air conditioning technology course AIRC 1060 (formerly ACT107) offered by all the Georgia Vocational and Technical Schools and Colleges meets the requirements of Board Rule 121-2-.03. You must submit a copy of your transcript which shows that you have completed the course. To obtain information on the course, contact your local state technical institute. For locations contact the Technical College System of Georgia at 404-679-1600 or www.tcsg.edu.

The following agencies have submitted information to the Board describing courses that meet the Board requirements. Before enrolling in a private course be sure that it meets the requirements of Board Rule 121-2-.03.
