## Electrical Contractor's Continuing Education

O.C.G.A. §43-14-G(e)(1)

The Division of Electrical Contractors shall be authorized to require persons seeking renewal of Electrical Contractor Class I and Class II licenses to complete board approved continuing education of not more than four hours annually. The division shall be authorized to approve courses offered by institutions of higher learning, vocational-technical schools, and trade, technical, or professional organizations; provided, however, that continuing education courses or programs related to electrical contracting provided or conducted by public utilities, equipment manufacturers, or institutions under the State Board of the Technical College System of Georgia shall constitute acceptable continuing professional education programs for the purposes of this subsection. Continuing education courses or programs conducted by manufacturers specifically to promote their products shall not be approved.

Board Rule 121-4-.07(4)

Continuing education courses shall be in the area related to electrical contracting as prescribed by the division. Such continuing education courses must be conducted by an accredited college or university; a post secondary institute under the jurisdiction of the Georgia Board of Technical and Adult Education or the equivalent agency of another state or local government; an organization consisting of members of a trade, technical, or professional group; a public utility; or an electrical equipment manufacturer. However, courses conducted by manufacturers specifically to promote their products shall not be approved under this Rule.

The following agencies have submitted information to the Board describing courses that meet the Board requirements. Before enrolling in a private course be sure that it meets the requirements of Board Rule 121-4-.07(4)
