

Easily manage CE compliance

Used Motor Vehicle Dealers can find, track, and report continuing education all in one easy to use platform.

Propelus CE Broker is the official partner of the Georgia State Board for the Registration of Used Motor Vehicle Dealers for continuing education management. Through this partnership, dealers are provided with a free Basic Account to track CE progress and report hours.

Activate your CE Broker account

Dealer accounts are already configured with specific continuing education requirements.

1. **Visit:** <https://cebroker.com/plans?selected-plan=basic>
2. **Select:** In the state drop down box, select Georgia. In the "Profession" drop down, select "**Used Motor Vehicle Dealer**" to create the account.
3. **Claim:** Only the owner of the dealership should claim the account. Registering with an owner-controlled email (*such as continuingeducation@<dealersorg.com>*) provides designees with the ability to log-in and ensures that you never lose access during staff turnover. You retain the power to reassign access to new designees at any time.
4. **Identify:** Enter the dealer license number to connect to your account. Each dealer license will have its own CE Broker account and must use a unique email address for each.
5. **Share:** Provide your designees with access to the dealership-specific email information so they can log in to CE Broker. Once they are in the platform, they can find and take courses, view their course history, and report completions to the board.

Helpful Support Center

We are here to assist you with your renewal journey.
